Creating Better Spaces, Solving Problems & Making Things Work | Facilities Management | Leadership | Project Management | Continuous Improvement
Singapore

Summary

I am a Senior Facilities Executive with extensive experience in facilities operations, building maintenance, project management, contractor and vendor management, tender/ITQ administration, fire safety and facilities improvement.My experience spans project management, quality assurance, facilities operations and residential building management, giving me a practical understanding of both technical requirements and day-to-day operations. I can handle hands-on work and manage maintenance and upgrade works, coordinating multiple contractors, reviewing technical scopes, evaluating proposals and ensuring projects are delivered safely, efficiently and to the required standards.I take a practical, always learning and solution-focused approach to challenges, with strong attention to detail, quality and operational continuity. I work closely with stakeholders, contractors and service providers to identify issues, develop workable solutions and deliver improvements that enhance the safety, reliability and functionality of residential facilities.

Experience

Hwa Chong Institution Boarding School
